

**DR. RAJENDRA PRASAD
NATIONAL LAW UNIVERSITY, PRAYAGRAJ**

WINTER INTERNSHIP REPORT (2025-26)

BATCH OF 2030

ABOUT RPNLUP

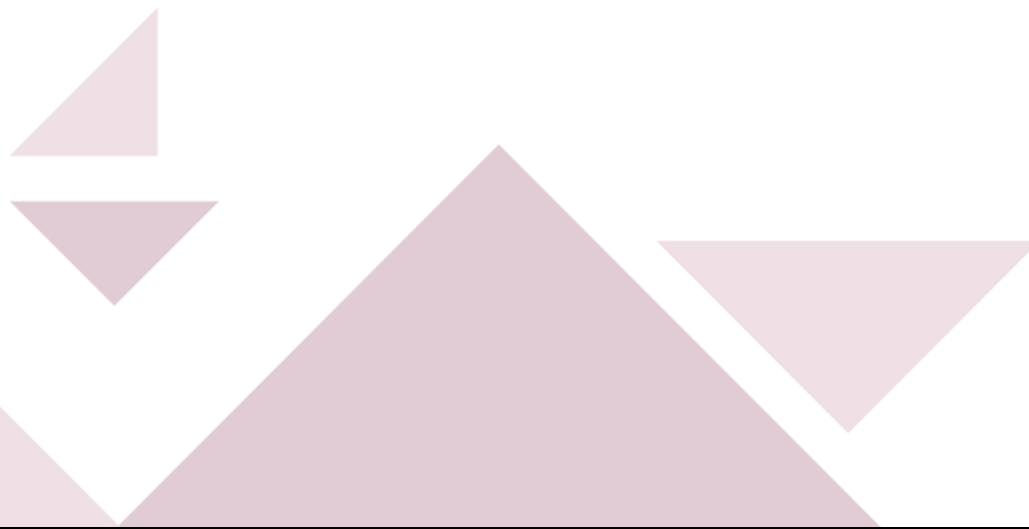

Dr. Rajendra Prasad National Law University (RPNLUP), Prayagraj, was established in 2020 as Uttar Pradesh National Law University and was subsequently renamed in 2023 in honour of India's first President. The University is dedicated to fostering academic excellence and professional competence, with the objective of preparing students to become skilled lawyers, judges, scholars, and leaders.

Situated in Prayagraj, a city known for its rich academic and intellectual heritage, RPNLUP provides a conducive and inspiring environment for learning and growth. The University follows an innovative and interdisciplinary curriculum that integrates classroom teaching with practical exposure. Activities such as moot courts, legal aid clinics, research projects, and structured internships form an integral part of student training, ensuring a strong connection between theoretical knowledge and its practical application.

RPNLUP also places significant emphasis on diversity and inclusivity, welcoming students from varied backgrounds and encouraging a culture of dialogue, debate, and collaboration.

Through its commitment to mentorship, professional training, and nation-building, the University seeks to nurture individuals who not only excel in their respective fields but also contribute meaningfully to society.

Through this balanced and forward-looking approach, RPNLUP aspires to emerge as a premier centre of legal education in India.

ABOUT INTERNSHIP & EXTERNSHIP SOCIETY

The Internship and Externship Society of Dr. Rajendra Prasad National Law University plays a crucial role in bridging the gap between classroom learning and professional exposure. By coordinating with government bodies, non-governmental organisations, research institutions, and other entities, the Society enables students to gain practical insights into the functioning of the legal system.

In addition to facilitating internship opportunities, the Society actively guides students in preparing applications, refining their curriculum vitae, and developing essential skills required to navigate competitive legal environments. These efforts are closely aligned with the University's vision of providing holistic legal education.

As part of its initiatives, the Society also undertakes the preparation of reports documenting students' practical training experiences. The Internship Reports highlights the initial internships undertaken during the December- January and June- July break, wherein students engaged with a range of reputed institutions and gained exposure to legal procedures, client interactions, and institutional functioning. Notably, several students secured internships independently, reflecting their initiative and commitment.

To ensure consistency and professionalism, faculty members have provided continuous mentorship, including guidance on curriculum vitae preparation and the adoption of a standardised format across the batch. These reports serve as an important evaluative tool for both students and the University, enabling an assessment of how academic learning is translated into practical application.

Building upon this foundation, the forthcoming Summer Internship Report is expected to provide more comprehensive insights into longer-duration internships and their contribution to students' professional growth and development.

CONCLUDING OBSERVATIONS AND FUTURE ASPIRATIONS

The internship experience has been an integral part of our academic journey, enabling us to bridge the gap between theoretical knowledge and practical application of law. Through exposure to diverse legal institutions and professional environments, we have developed a clearer understanding of legal processes, research methodologies, and the functioning of various stakeholders within the legal system. These experiences have not only strengthened our analytical and practical skills but have also enhanced our ability to approach legal issues with greater clarity and confidence.

The structured internship framework followed at RPNLU, Prayagraj has played a significant role in ensuring progressive learning and skill development, allowing us to move from foundational understanding to practical exposure in a systematic manner. It has also helped us identify our areas of interest while equipping us with the essential competencies required in the legal profession.

Going forward, we aspire to build upon these experiences by gaining deeper exposure in specialised areas of law, refining our professional skills, and contributing meaningfully to the legal field. We aim to develop into competent, ethical, and socially responsible legal professionals, capable of addressing complex legal challenges and upholding the principles of justice. We aspire not only to excel in our chosen fields but also to use the law as a tool for meaningful impact and societal advancement.
